17 February 1991

Dear Dr. Truzzi,

I came across your letter today of July1989. I was living in Australia when it arrived and someone failed to forward it to me and now I do not know whether I have replied before or not. If not, please forgive me.

I'm afraid I don't know of any other references in espionage literature to psi other than the ones mentioned in my book.

Did you get your newsletter off the ground? I would be interested to see a copy.

With best wishes,

Phillip Knightley
